- Greek: Basic (A2)

FRENKLI ZEQOLLARI

SOFTWARE ENGINEERING STUDENT

Software engineering student at the University of Europe for Applied Sciences and intern in e-Development at a&o Hostels. Alongside my studies I am founding and building Taply, a bill-splitting app with a rewards layer, and I take my own web and mobile projects from idea to live product. As President of the Student Council in Potsdam I learned to build teams, design processes and take ownership.

WORK EXPERIENCE

A&O

a&o Hostels & Hotels

NOV 2024 – OCT 2026

e-Development Intern (Internship Semester)

SEP 2026
BERLIN

- Web development with Laravel and PHP in the e-Development team
- Working in agile workflows with Jira, Confluence and GitHub
- Local development environment with DDEV, secure database access with PDO

Operations Coordinator — Opening Phase

AUG 2025 – SEP 2025
MILAN, ITALY

- Played a key role in launching a&o's new location in Milan
- Led front desk operations during the initial operating phase
- Implemented brand standards and guest service protocols

Front Desk Representative

NOV 2024 – OCT 2026
BERLIN

- Main point of contact for national and international guests throughout their stay
- Managed daily front desk operations and coordinated with other departments
- Handled reservations and resolved complex guest requests

UE

University of Europe for Applied Sciences

NOV 2025 – PRESENT

President, Student Council Potsdam

POTSDAM

- Built the Student Council at the Potsdam campus from the ground up, incl. identity, communication channels and a handover handbook
- Ran an open recruitment with 42 applications, blind scoring and structured interviews
- Designed the 2026/27 multi-campus election across five sites (Election Director)
- Member of the Quality Advisory Board — quality assurance, accreditations and programme development

GC

General Clean

JUL 2023 – OCT 2024

IT Department Staff

FRANKFURT AM MAIN

- Designed and maintained the company website
- Online marketing for the company using SEO
- Developed a platform connecting housekeeping with the reception

PROJECTS

Taply
JUL 2025 – PRESENT

Founder & developer — bill-splitting app with rewards
TAPLY.COM.DE

Flutter · Dart · Firebase

- Started as the final project in a Start-up Management course, built on solo since
- Groups, flexible splits, settlement calculation, cloud sync and a loyalty points system
- Website and internal staff portal on Vercel

Praxis

Web app for logging the internship semester

React · TypeScript · Supabase · Vercel

- Daily log, report flags and Markdown export — live and used by fellow students
- Multi-user with row-level security; GDPR-minded design incl. SRS and DPIA screening

WG Manager

App for shared flats

React Native · Expo · Supabase

- Fair automatic chore scheduling based on availability, shared house fund and real-time shopping list
